SECTION III: RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the section “Summary of Draft Letter of Offer” and “Introduction” on pages 17 and 41 respectively. The industry-related information disclosed in this section has been derived from publicly available documents from various sources believed to be reliable, but their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Neither our Company, nor any other person connected with the Issue have independently verified the information in the publicly available information cited in this section.

Unless otherwise stated, references in this section to the “Company” or “our Company” means “Kilitch Drugs (India) Ltd”, and “we”, “our” or “us” (including in the context of any financial information) is a reference to our Company together with its consolidated Subsidiaries, Joint Ventures, and Associates, as applicable. Unless otherwise stated, references to “Group” or “Kilitch Group” shall mean Kilitch Drugs (India) Ltd along with its subsidiaries and associates, as applicable.

This Draft Letter of Offer also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 16.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Consolidated Audited Financial Information, prepared in accordance with Ind AS and the Companies Act and in accordance with the SEBI ICDR Regulations.

MATERIALITY

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some risks may not be material individually but may be found material collectively.;
- Some risks may have an impact which is qualitative though not quantitative.;
- Some risks may not be material at present but may have a material impact in the future.

The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another. In this Draft Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

OBJECT RELATED RISK

1. ***We have not placed 100% orders for plant and machinery / Equipments. In case of any escalation in prices of these Equipments, our total project cost may increase which in turn will adversely affect our financials.***

While we have identified the types of plant and machinery and other ancillary activities necessary for our operations, orders for 100% of the plant & machinery and other ancillary activities, as detailed in the “Objects of the Issue” Section starting on page 47, have not been placed. These estimates are based on Project Report issued by M/s Deepak Kapoor, Chartered Engineer. As on June 30, 2025, an amount of ₹ 7,578.00 Lakhs has already been deployed towards the, Independent Chartered Engineer, dated July 02, 2025 which are subject to various variables, including potential cost overruns, changes in management's strategic decisions, alterations in suppliers of plant & machinery equipment, among others. These factors may adversely affect our business and operational results. Furthermore, we cannot guarantee our ability to procure these plant and machinery components, or obtain them within the budgeted costs and timelines. Delays in their acquisition could result in cost and time overruns, leading to a significant adverse impact on our business, operational results, and financial condition.

2. ***Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.***

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or other external agency. Further, in the absence of such external appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. For details, see “Objects of the Issue” on page 47.

3. ***We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, business operations and financial condition.***

As on date of this Draft Letter of Offer, we have not made any alternate arrangements for meeting our capital requirements for objects of the issue. We meet our capital requirements through, owned funds, debt and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Net Issue proceeds may delay the implementation schedule and could adversely affect our growth.

RISK MATERIAL TO OUR COMPANY AND OUR BUSINESS

4. ***A significant proportion of our revenues are derived from OSD, General Injectable and Cephalosporin, any reduction in the demand for such products could have an adverse effect on our business, results of operations and financial condition.***

We derive majority of our revenues from the sale of OSD, General Injectable and Cephalosporin:

(Rs. in Lakhs)

Products	FY 2024-2025*		FY 2023-2024*		FY 2022-2023*	
	Revenue from Operation	% of total Revenue from Operation	Revenue from Operation	% of total Revenue from Operation	Revenue from Operation	% of total Revenue from Operation
OSD	4,002.52	22%	3,614.47	27%	2,080	18%
General Injectable	5,837.11	32%	5,503.42	42%	4,096.81	35%
Cephalosporin	3,688.16	20%	2,880.29	22%	2029.75	17%

*Figures are based on audited standalone financial statements.

As these segments account for the majority of our operations, any adverse developments affecting their demand—such as changes in government procurement policies, increased competition, pricing pressure, or regulatory action—could materially impact our business. Our customer base includes government institutions and international buyers in over 46 countries, with exports forming a substantial share of total revenue; therefore, fluctuations in healthcare budgets or tender-based procurement in these markets may lead to revenue volatility. Moreover, if our customers lose market share, fail to secure recurring tenders, or reduce their purchasing volumes, it may result in reduced repeat orders and revenue loss. We also face risks from evolving therapeutic trends or shifts in demand away from the product categories we currently manufacture. While we continue to expand our product offerings and plan to increase capacity through our upcoming Greenfield facility at Pen, Maharashtra, success is contingent upon maintaining customer confidence, product relevance, and quality consistency. We strive to strengthen customer retention by providing cost-effective, quality-driven solutions and adapting to emerging healthcare needs. However, there can be no assurance that demand for our current formulations will remain consistent, and any decline in sales from our core product segments may adversely affect our profitability and growth prospects.

5. ***We derive a huge portion of our standalone revenues from exports and are subject to risk of international trade. Our exports accounted for 61%*, 63%* and 70%* of our total revenue for the financial year ending March 31, 2025, 2024 and 2023, respectively.***

****Figures are based on audited standalone financial statements.***

A significant proportion of our revenue is generated from international markets, particularly in Africa, Asia, CIS, and Latin America. During financial year 2023-2024, one of our subsidiaries, *Kilitch Estro Biotech Plc*, secured a major government tender worth USD 9.13 million in Ethiopia, underlining the material reliance on specific export geographies. While this strategic presence enhances market penetration, it also exposes our Company to substantial geopolitical and economic risks. Any adverse shift in trade policies, customs duties, or import-export regulations by these countries can disrupt product flows and impact overall revenue generation. Additionally, political instability, social unrest, or armed conflict in these regions could lead to temporary or prolonged business disruptions. Our Company is also exposed to the volatility of foreign exchange markets, where sudden currency fluctuations may affect pricing and profitability. We are susceptible to regulatory changes in healthcare standards, which vary widely between countries and may delay product approvals or lead to additional compliance costs. Localized economic crises or banking restrictions, such as foreign exchange reserve issues can also result in delayed payments or defaults. Furthermore, concentration in developing economies often correlates with heightened credit risk from government or institutional buyers. Further, adverse currency movements may also affect profitability, despite hedging mechanisms. Any sustained adverse developments in these markets could significantly impair our financial performance and cash flows.

6. ***Our manufacturing facilities are geographically concentrated, and any disruption at these locations could adversely affect our operations, financial performance, and business prospects.***

Our manufacturing operations are primarily concentrated in Mumbai, Maharashtra, with a new Greenfield facility under development at Pen, Maharashtra. The Mumbai unit is equipped to manufacture dry powder, ophthalmic products, and small-volume liquid ampoules and vials, while the Ethiopia unit is the Cephalosporin plant in East Africa, catering to government tenders and institutional supply. As these facilities are critical to our production and revenue, any disruption — including those caused by technical failure, power outages, equipment breakdown, industrial accidents, regulatory interventions, or acts of nature — may lead to delays in delivery, contract breaches, or loss of revenue.

Although we have not experienced significant operational disruptions in the past, events such as civil unrest, workforce disputes, logistical bottlenecks, or compliance issues may result in temporary or prolonged production halts. Additionally, any region-specific challenges, such as political instability or foreign exchange shortages (as recently experienced in Ethiopia), could hamper supply chain continuity and working capital efficiency. Our reliance on a limited number of facilities increases the risk of business continuity failure if adverse circumstances affect any one site. Further, with rapid industrialization around our Mumbai facility, rising pressure on infrastructure and utilities may also impair operational efficiency. Any such interruption may lead to failure in fulfilling customer orders on time, causing reputational harm and financial losses. A prolonged disruption in any of our key facilities could have a material adverse effect on our results of operations, financial condition, cash flows, and overall business prospects.

7. ***We depend on the success of our relationships with our customers. We derive a significant part of our revenue from our limited number of customers and we do not have long term contracts with these customers. If one or more of such customers choose not to source their requirements from us, our business, financial condition and results of operations may be adversely affected.***

Our business is significantly dependent on a concentrated customer base, with a substantial portion of our revenues derived from a limited number of customers, particularly in institutional segments across export markets. Given the nature of our business, there can be no assurance that we would be able to attract new customers or reduce our dependence on any of our top customers. We expect that we will continue to be reliant on our major customers for the foreseeable future. Accordingly, any failure to retain these customers or to remain suppliers to these customers and/or negotiate and execute contracts on terms that are commercially viable, with these select customers, could adversely affect our business, financial condition and results of operations. In addition, any defaults or delays in payments by a major customer or the insolvency or financial distress by a major customer may have an adverse effect on business, financial condition and results of operations.

Cancellation by customers or delay or reduction in their orders or instances where anticipated orders fail to materialize can result in mismatch between our expectant and existing inventory levels at our unit, thereby increasing our costs relating to maintaining our inventory and reduction of our margins, which may adversely affect our profitability and liquidity. Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss. Further, our inability to find customers for surplus products may result in excessive inventories which may become obsolete and may be required to be written off in the future.

Additionally, our customers have high and stringent standards for product quality and quantity as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also several factors, other than our performance that could cause the loss of a customer, which include those customers who may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, or replace their existing products with alternative products, any of which may have an adverse effect on our business, financial condition, results of operations and prospects.

8. ***We highly depend on our major raw materials on many of the suppliers who help us procure the same. Our Company has not entered into long-term agreements with our suppliers for supply of raw materials. In the event we are unable to procure adequate amounts of raw materials, at competitive prices our business, results of operations and financial condition may be adversely affected.***

Our operations rely heavily on third-party suppliers for key raw materials such as APIs, dextrose anhydrous, pharmaceutical-grade sugar, colorants, and packaging materials. We typically do not enter into long-term contracts with these suppliers, sourcing materials primarily from domestic markets such as Maharashtra, Gujarat, Andhra Pradesh and Telangana. For the year ended March 31, 2025, our consolidated cost of materials consumed stood at ₹ 10,574.97 lakh, which accounted for a substantial portion of our total expenses. The absence of price-lock contracts exposes us to volatility in input prices and supply disruptions that could adversely impact our manufacturing schedules and margins. Our consolidated raw material inventory doubled, from ₹142.72 lakh in FY 2023 to ₹325.45 lakh in FY 2024, highlighting rising input dependencies. Any inability to source timely and competitively priced raw materials could severely affect our ability to meet customer demands, thereby impacting our revenues and profitability.

9. ***Our business is working capital intensive, and any inability to generate adequate cash flows or secure financing to meet our working capital requirements, including payments to third-party manufacturers, could adversely affect our operations, financial condition, and growth prospects.***

Our business operations are inherently working capital intensive, requiring substantial funding for raw material procurement, inventory management, production activities, and timely payments to third-party manufacturers. We also rely on outsourced manufacturing arrangements for certain products, and maintaining smooth relationships with these contract manufacturers is critical to ensuring uninterrupted production and timely delivery to our customers. As we continue to expand our operations by setting up a new Green Field Project at Pen Maharashtra, India —particularly for capturing regulated and international markets—our working capital needs are expected to increase, resulting in higher levels of current assets and receivables. Delays in customer

collections or longer credit periods extended to clients can intensify pressure on our working capital cycle. Our working capital requirements are typically financed through internal accruals and external borrowings, including working capital loans and cash credit facilities. As of March 31, 2025, our total outstanding working capital borrowings stood at ₹2,132.41 Lakhs. Our ability to obtain such financing in the future depends on various factors, including banking sector liquidity, interest rate movements, creditworthiness, and broader economic and regulatory conditions. In certain customer contracts, especially in export markets or government tenders, payment schedules may be deferred or milestone-based, which can result in delayed cash inflows. This heightens our dependence on working capital financing to meet our ongoing obligations, including timely payments to third-party manufacturers. Failure to honour such payments on time may lead to supply chain disruptions, strained vendor relationships, and potential production delays. If we are unable to generate sufficient internal cash flow or raise funds on favourable terms, it may adversely impact our ability to fulfill orders, manage supplier commitments, and maintain operational continuity. Additionally, reliance on debt financing could increase our interest burden and impose restrictive covenants, thereby limiting financial flexibility. Unforeseen cost overruns, adverse market conditions, or regulatory changes could further affect our liquidity position and capital requirements.

10. *Our operations are dependent on our R&D capabilities, and any inability to innovate or adapt to evolving pharmaceutical trends may adversely affect our competitiveness and growth.*

As a manufacturer primarily engaged in the formulation of injectables, ophthalmics, oral solids, and Cephalosporins, our continued success depends on our ability to enhance process efficiencies, reduce costs, and respond to evolving therapeutic demands through effective research and development (R&D) initiatives. While our business model has historically focused on generic formulations and contract manufacturing. Our ability to compete globally—especially in semi-regulated markets—depends on developing differentiated, cost-effective products and adapting manufacturing techniques to meet stringent international standards. Failure to identify emerging trends, upgrade formulations, or introduce new dosage forms may result in stagnation and limit our market expansion. Moreover, the absence of a strong in-house R&D engine may delay our entry into high-growth segments like biologics, complex injectables, or fixed-dose combinations. If we are unable to enhance our R&D capabilities or secure technology partnerships that drive innovation, it may adversely affect our product pipeline, operational scalability, and long-term sustainability.

11. *We do not possess patents for our processes, which may result in inadequate protection of our intellectual property rights. This could potentially have a substantial adverse effect on our business and operational outcomes.*

Our ongoing commercial success hinges on our ability to safeguard our processes and secure intellectual property rights. This lack of patent protection allows competitors to potentially replicate these process technologies, thereby diminishing or nullifying any competitive advantage we possess, which could negatively impact our business and profitability. Additionally, there is no guarantee that any future patent applications we submit will result in granted patents, or that such patents, if granted, will offer sufficient proprietary protection or competitive benefits.

Consequently, we cannot ensure the confidentiality of our technical knowledge. There is a risk that certain technical information may be disclosed, either unintentionally or deliberately, at various stages of the manufacturing process. A significant number of our employees have access to these confidential processes, and we cannot guarantee that this information will remain secure. Furthermore, some employees may leave our company and join competitors. While our arrangements with some of our customers include confidentiality clauses, we cannot assure that these arrangements will effectively protect our technical knowledge. If a competitor is able to reproduce or otherwise capitalize on our technology, it may be difficult, expensive or impossible for us to obtain necessary legal protection. Any leakage of confidential technical information could adversely affect our business, operational results, financial condition, and future prospects. Failure to protect the intellectual property associated with our in-house developed processes may prevent us from claiming registered ownership of these processes, and consequently, we may be unable to seek remedies for any infringement by third parties.

12. *Any failure in our manufacturing processes or quality control systems may disrupt our operations, harm our reputation, lead to regulatory actions or litigation, and adversely impact our business, financial condition, and results of operations.*

The pharmaceutical industry is subject to stringent regulatory oversight globally, particularly concerning manufacturing practices, product quality, and safety standards. Our manufacturing operations must comply with applicable laws and regulations, including Good Manufacturing Practices (GMP), as prescribed by Indian and international regulatory authorities. Our products must be manufactured, tested, packaged, labelled, and stored in accordance with the specific requirements laid down by these authorities.

Our facilities are subject to periodic inspections by regulatory bodies, both scheduled and unannounced, to assess compliance. Any failure to meet prescribed standards may result in regulatory warnings, observations, or enforcement actions, which could include suspension of operations, product recalls, import alerts, or cancellation of approvals. Following such inspections, authorities may issue notices identifying deviations from regulatory standards, which we are required to address within stipulated timelines. Failure to do so may invite further regulatory scrutiny or penalties.

Additionally, any change in our manufacturing processes, equipment, or sites may require prior approval from relevant authorities. Such approvals can involve lengthy and complex procedures and are not guaranteed. Delays or denials in obtaining such approvals can impact production timelines and market availability of our products.

We operate and seek to expand in regulated international markets, which impose high entry barriers and extensive requirements for product testing, approval, and ongoing compliance. Each country has its own set of regulatory frameworks relating to product registration, environmental safety, and efficacy. Any failure on our part to meet these evolving regulatory standards, renew product registrations, or adapt to changes in compliance norms may adversely affect our market presence, credibility, and future expansion plans.

Further, any lapse in manufacturing or quality control—whether actual or perceived—could lead to product liability claims, damage our reputation for high-quality manufacturing, and expose us to potential litigation or commercial losses, ultimately affecting our business prospects, cash flows, and financial performance.

13. *Our significant dependence on third-party manufacturers exposes us to risks related to quality control, regulatory compliance, and timely supply, any of which could adversely affect our business operations, reputation, and financial condition.*

We currently also rely on third-party pharmaceutical manufacturers for the production of a wide range of formulations, including tablets, dry syrups, granules, suspensions, oral drops, effervescent granules, suppositories, gels, ORS, powders for injection, ointments, powders for oral suspension, vitamin serums, and other products. These products are marketed and sold under our own brand name. A substantial portion of our revenue is derived from such contract manufacturing arrangements.

However, under these arrangements, we have limited control over the manufacturing processes, quality assurance protocols, and regulatory compliance of third-party manufacturers. Any failure on their part to adhere to required standards of good manufacturing practices (GMP), quality control, or regulatory norms may expose us to significant business risks, including reputational damage, regulatory scrutiny, import alerts, product recalls, or potential litigation. Additionally, delays or interruptions in product supply by these third parties may result in cancellation of customer orders, loss of revenue, and disruption in our operations.

Our existing in-house manufacturing facility located at C-301/2, MIDC, TTC Industrial Area, Pawane Village, Thane, Maharashtra – 400705 is currently operating at near full capacity. Given the rising demand for our products, our dependence on outsourced manufacturing is expected to remain high in the near term.

To mitigate this dependency and improve supply chain control, we propose to set up a new manufacturing facility at Pen, Maharashtra, approximately 73 km from our corporate office in Deonar, Mumbai. This facility is intended to manufacture key product lines currently outsourced, including oral tablets, liquid injectable vials and ampoules, ophthalmic drops, and nasal drops. The expansion is expected to enhance our capacity to meet growing global demand and reduce reliance on third-party manufacturers. For further details, see “*Objects of the Issue*” on page 47.

Despite these plans, there can be no assurance that our dependency on third-party manufacturers will be fully mitigated in the short term. Continued reliance on external vendors exposes us to risks beyond our control, which may adversely affect our business, results of operations, and financial performance.

14. Our business involves usage of manpower and any unavailability of our employees or any strikes, work stoppages, increased wage demands by workmen or changes in regulations may have an adverse impact on our cash flows and results of operations.

Our business involves usage of manpower and we are dependent on the availability of our permanent employees and the supply of a sufficient pool of labourers. Unavailability or shortage of such a pool of workmen or any strikes, work stoppages, increased wage demands by workmen or changes in regulations may have an adverse impact on our cash flows and results of operations. We may not be able to secure the required number of labourers required for the timely execution of our functions for a variety of reasons including, but not limited to, possibility of disputes, strikes, less competitive rates. We are subject to laws and regulations relating to employee welfare and benefits such as minimum wage, working conditions, employee insurance, and other such employee benefits and any changes to existing labour legislations, including upward revision of wages required by such state governments, limitations on the number of hours of work or provision of improved facilities. Further, there can be no assurance that disruptions in our business will not be experienced if there are strikes, work stoppages, disputes with labourers deployed at our projects. This may adversely affect our business and cash flows and results of operations.

15. We are dependent on demand from the pharmaceutical industry, and any adverse developments in the industry could materially impact our business, revenue, and profitability.

Our business model is inherently tied to the health and growth of the global pharmaceutical industry, as we are primarily engaged in the manufacturing and export of pharmaceutical formulations including injectables, ophthalmic, nasal, and oral solid dosages. A substantial portion of our revenue is derived from pharmaceutical companies and government contracts across emerging markets such as Africa, Asia, CIS, and Latin America. Consequently, any industry-wide downturn—whether due to regulatory changes, pricing pressures, reduced public healthcare spending, or technological disruption—may adversely impact our business.

Our revenue model also faces risks in the event that pharmaceutical companies choose to internalize production, shifting from outsourcing to captive manufacturing. In such a scenario, the demand for our manufacturing capabilities could decline. Additionally, any major breakthrough by competitors or customers in drug formulations, manufacturing techniques, or sourcing of superior raw materials could render our offerings less relevant or obsolete. This could lead to a loss of competitiveness and pricing power.

Moreover, if competitors develop more cost-efficient or high-yield production processes, they may be able to offer similar or superior quality products at lower prices. Given our current manufacturing footprint, we may face challenges in responding quickly to such innovations. Inability to scale efficiently, retain customers, or match industry advancements could materially affect our financial performance and market position. Hence, the performance of the pharmaceutical sector as a whole directly influences the sustainability and profitability of our operations.

16. The availability of counterfeit drugs, such as drugs passed off by others as our products, could adversely affect our goodwill and results of operations.

Entities in India and abroad could pass off their own products as ours, including counterfeit or pirated products. For example, certain entities could imitate our brand name, packaging materials or attempt to create look-alike products. As a result, our market share could be reduced due to replacement of demand for our products and adversely affect our goodwill. We have also invested in our products to prevent counterfeit versions of our products from being distributed in the markets. Such measures include, monitoring products in the market and initiating actions against counterfeiters, each of which entails incurring significant costs at our end. The proliferation of counterfeit and pirated products, and the time and attention lost to defending claims and complaints about counterfeit products could have an adverse effect on our goodwill and our business, prospects, results of operations and financial condition could suffer

17. Our Company has incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.

As on March 31, 2025, we had long term borrowings of Rs. 2,777.04 Lakh and short-term borrowings of Rs. 2,132.43 Lakhs of outstanding debt in terms of long-term borrowings and short-term borrowings on our

balance sheet from HDFC Bank Limited, Standard Chartered Bank and Kotak Mahindra Bank Limited. In the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lenders could declare us to be in default, accelerate the maturity of our obligations or takeover our properties or even sell our properties. We cannot assure investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet such obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds.

18. Our Company had negative cash flows in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

As per our Standalone Audited Financial Statements, our cash flows from operating, investing and financing activities are as set out below:

Particulars	(Rs. in Lakhs)		
	For the Financial Year ended on		
	2025	2024	2023
Net Cash Generated from Operating Activities	1,523.28	(119.32)	609.76
Net Cash Generated from Investing Activities	(4,142.49)	(1,009.60)	624.45
Net Cash Generated from Financing Activities	1,565.19	1,140.22	304.41

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources.

If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

19. We are dependent on third-party transportation providers for the supply of raw materials and finished products.

Our business operations are significantly dependent on third-party transportation providers for the timely delivery of both raw materials to our manufacturing facilities and finished pharmaceutical products to customers across domestic and international markets. With manufacturing facilities located in Mumbai, Maharashtra and, Ethiopia, and exports to more than 46 countries, including substantial volumes to Africa, CIS, and Asia, any disruption in logistics could materially impact our supply chain and order fulfillment capabilities. Transportation delays due to accidents, geopolitical disturbances, natural disasters, or fuel price fluctuations can lead to increased freight costs or missed delivery timelines. For instance, in FY 2024–25, we earned ₹10,322.61 lakhs in foreign exchange, underscoring our reliance on cross-border transport and distribution channels. While we maintain operational buffers, any significant delay or damage in transit—especially of temperature-sensitive injectable and ophthalmic products—could result in sales losses, strained customer relationships, and elevated replacement costs. Additionally, compensation from insurers or logistics partners may not fully offset the business impact, potentially affecting our financial performance, cash flows, and brand reputation.

20. We have previously engaged in related party transactions and may continue to do so in the future. However, there is no assurance that we will be able to secure more favorable terms in such transactions compared to those with unrelated parties.

We have entered into transactions with our related parties in the ordinary course of business and may continue to do so in the future. These transactions include, among others, sales and purchases, loans and advances. While such transactions were entered into during the financial year were on an arm's length basis and were in the ordinary course of business and did not attract provisions of section 188 of the Companies Act, 2013 and were also not material RPTs under Regulation 23 of SEBI LODR Regulations, they may involve inherent risks. There can be no assurance that all such transactions have been or will be on terms that are more favourable, or as favourable, as those that could have been obtained from unrelated third parties. Further, there is a potential risk of conflict of interest, perception of preferential treatment, or non-arm's length dealings, which could

adversely impact our business, financial condition, and reputation. In addition, if we extend credit or loans to related parties, we may be exposed to risks of delayed recovery, default, or write-offs, which could adversely affect our financial results. We strive to ensure that all related party transactions are conducted in compliance with Companies Act, 2013 and SEBI LODR Regulations.

We enter into related party transactions from time to time. If we extend loans or advances, or purchases or sales to related parties, we may face risks related to defaults or non-recovery. There is no assurance that we will be able to secure more favourable terms for such transactions if conducted with unrelated parties.

21. *The success of our business relies on the expertise of our employees including key managerial personnel, and senior management, as well as our ability to attract, train, and retain skilled employees.*

The continued success of our business is significantly dependent on the knowledge, expertise, and experience of our employees, particularly our key managerial personnel, senior management, and technical staff. Their contributions have been instrumental in driving our operational performance, consistent profitability, and maintaining a strong liquidity and capital position. As of March 31, 2025, we have around 187 employees, and our employee strength includes more than 40% women, in each department including women at management level and HOD level of maximum departments.

Our future growth and competitiveness will depend on our ability to attract and retain qualified professionals, particularly in the areas of formulation development, quality assurance and regulatory compliance, manufacturing operations, and international business development. The pharmaceutical industry is highly competitive, and the availability of skilled talent is limited. We face challenges in recruitment and retention due to increasing competition, better opportunities in the market, and industry-specific factors.

If we are unable to attract or retain qualified personnel, our ability to execute business strategies, deliver high-quality products, and expand into new markets could be compromised. Additionally, the departure of key personnel without timely and adequate replacement could disrupt our operations, delay projects, and result in increased training and hiring costs. We would also need to ensure that new hires are properly trained and integrated into our internal control systems and risk management framework, failure of which could impact operational efficiency and compliance.

Furthermore, any labour unrest, strikes, or agitations involving our employees may result in production halts, delivery delays, and reputational damage. Such disruptions could lead to increased costs, lowered employee morale, and strained customer relationships. Although we strive to maintain a harmonious work environment and address employee concerns proactively, there is no assurance that such disputes can be prevented or resolved in a timely manner.

However, we confirm that there have been no incidents of labour unrest, strikes, or employee agitations affecting our operations during the last three financial years. While this track record reflects positively on our employee relations, it does not preclude the risk of such events occurring in the future.

22. *Introduction of alternative pharmaceutical products caused by changes in technology or consumer needs may affect demand for our existing products which may adversely affect our financial results and business prospects.*

Our products are mainly used in the healthcare sector to cater to masses. Our business is affected by change in technology, consumer needs, market perception of brand, convenience, health and safety norms. Our ability to anticipate such changes and to continuously develop and introduce new and enhanced products successfully on a timely basis will be a key factor in our growth and business prospects. There can be no assurance that we will be able to keep pace with the technological advances that may be necessary for us to remain competitive. Further, any substantial change in preference of consumers who are end users of our products will affect our customers businesses and, in turn, will affect the demand for our products. Any failure to forecast and/or meet the changing demands of pharmaceutical businesses and consumer needs may have an adverse effect on our business, profitability and growth prospects.

23. *The nature of products we deal into are prone to attracting litigation and long trials. In the event of any checking of our products by the respective authority, we may be drawn up into prolonged litigations thus adversely affecting our operations.*

As a manufacturer of pharmaceutical formulations, primarily injectables, ophthalmic preparations, and oral solids, our products are subject to stringent quality standards. While we maintain cGMP-compliant facilities and rigorous in-house quality controls, we have limited control over the post-delivery storage conditions at government dispensaries or distribution points. Several of our formulations require specific temperature and handling conditions, and any deviation from these standards by the end-user may lead to quality degradation. Given the nature of our customer base and the markets we serve, regular drug quality checks and inspections by regional drug control authorities are an ongoing aspect of our operations. We cannot assure that future inspections will not result in adverse findings or lead to further litigation. In such events, our financial condition, operational continuity, and goodwill could be negatively impacted. Additionally, if any such litigation gains public attention or regulatory traction, it may lead to temporary suspension of supply orders or affect our ability to secure future tenders.

24. *Our insurance coverage may not adequately protect us against losses.*

We maintain insurance coverage that we believe is adequate for our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances, and are subject to certain deductibles, exclusions and limits on coverage. We cannot assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us, or that such coverage will continue to be available on reasonable terms, or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, results of operations and financial condition.

25. *Our inability to obtain, renew, or maintain the statutory and regulatory approvals required for our operations, including for our upcoming manufacturing facility at Pen, Maharashtra, could materially and adversely affect our business, financial condition, and results of operations.*

Our business is subject to extensive regulation by various Indian and international authorities. We are required to obtain, maintain, and periodically renew a number of statutory and regulatory approvals, licenses, permits, and registrations from central and state government bodies in India, as well as from relevant international regulatory authorities, to operate and export our pharmaceutical products.

While we currently possess the requisite licenses and approvals for our ongoing operations and for initiating construction at our proposed manufacturing facility in Pen, Maharashtra, we will be required to obtain further approvals prior to commencing manufacturing activities at the new plant. Although no new products are currently proposed to be manufactured at this facility and we do not anticipate significant regulatory challenges, there can be no assurance that all required approvals will be granted in a timely manner or at all.

Additionally, many of our existing approvals are subject to conditions and are valid for specified periods, requiring timely renewals. Any delay in obtaining, renewing, or maintaining such approvals may result in interruptions to our operations, time and cost overruns, or restrictions on product manufacturing and exports. Regulatory authorities may also impose additional conditions or compliance obligations, which could result in increased operational costs or affect our business flexibility.

Furthermore, the regulatory environment in which we operate is evolving and becoming increasingly stringent. Any failure to comply with applicable regulations or the terms of our licenses may result in penalties, suspension, or cancellation of approvals, which could have a material adverse effect on our business, reputation, financial performance, and future growth.

26. *Compliance with, and changes in safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental, health and safety laws including but not limited to:

- a. The Pharmacy Act, 1948;
- b. The Drugs and Cosmetics Act, 1940 (DCA);
- c. The Drugs and Cosmetics Rules, 1945 (DC Rules);
- d. The Drugs (Price Control) Order, 2013 (DPCO 2013);
- e. Essential Commodities Act, 1955;
- f. Food Safety and Standard Act, 2006;
- g. Good Manufacturing Practice Guidelines (GMP);
- h. The Environment Protection Act, 1986 (Environment Protection Act);
- i. Air (Prevention and Control of Pollution) Act, 1981;
- j. Water (Prevention and Control of Pollution) Act, 1974;
- k. Hazardous Waste Management & Handling Rules, 2008;
- l. Public Liability Insurance Act, 1991

Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings being initiated against us, third party claims or the levy of regulatory fines, which may adversely affect our business, results of operations and financial condition. Further amendments to such statutes may impose additional provisions to be followed by our Company and accordingly our Company may need to avoid use of certain ingredients in preparation of our products, discontinue any range of product, incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, which could adversely affect our business, prospects, financial condition and results of operations.

27. *Our Fiscal 2025 Audited Consolidated Financial Statements and the Fiscal 2025 Audited Standalone Financial Statements have not yet been placed before our Shareholders in a general meeting.*

Pursuant to a resolution dated May 19, 2025, our Board approved the Fiscal 2025 Audited Consolidated Financial Statements and the Fiscal 2025 Audited Standalone Financial Statements. In terms of Section 134(3) of the Companies Act, 2013, as amended, read with Rule 8 of Companies (Accounts) Rules, 2014, as amended, a board report on the reporting period which shall be placed before our Shareholders in a general meeting. Our Company, in due course will hold its annual general meeting for the year ended March 31, 2025 and place our Fiscal 2025 Audited Consolidated Financial Statements and Fiscal 2025 Audited Standalone Financial Statements, before our Shareholders. Such financial statements, which include the Fiscal 2025 Audited Consolidated Financial Statements and Fiscal 2025 Audited Standalone Financial Statements, the link whereof has been included in this Draft Letter of Offer, shall remain subject to adoption, remarks and observations of our Shareholders, if any.

28. *Our ability to pay dividends in the future will depend on our future cash flows, working capital requirements, capital expenditures and financial condition.*

Our Company has not paid any dividend in the past 3 financial years. The amount of our future dividend payments, if any, will be at the sole discretion of our Board of Directors and will depend on our future earnings, cash flows, financial condition, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that we will pay dividends. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders. Our historical payment of dividends is not indicative of any payments of dividends in the future. We may be unable to pay dividends in the near or medium term and our future dividend policy will depend on our capital requirements, financial condition and results of operations. Investors should consult their own tax advisors about the consequences of investing in or trading in Equity Shares.

ISSUE RELATED RISK

29. *You may not receive the Equity Shares that you subscribe in this Issue until two days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you may be Allotted in this Issue may not be credited to your demat account with the depository participants until approximately two days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. We cannot assure you that the Equity Shares allocated to you will be credited to your demat account, or that trading in such Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

30. *Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.*

In terms of the SEBI ICDR Regulations, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

31. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operations or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for our Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

32. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure of completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

33. *Our Company will not distribute the Letter of Offer and other Issue related materials to overseas shareholders who have not provided an address in India for service of documents.*

We will not distribute the Issue Material to the shareholders who have not provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in various overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail address, this Draft Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then this Draft Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdiction. While our Company will request its shareholders to provide an address in India for the purposes of distribution of Issue Materials, our Company cannot assure that the regulator would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject our Company to fines or penalties.

34. Investors will be subject to market risks until the Equity Shares credited to the investor's demat account are listed and permitted to trade.

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since the Equity Shares are currently traded on BSE and NSE, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account in a timely manner or that trading in the Equity Shares will commence in a timely manner.

35. The Rights Equity Shares may experience price and volume fluctuations.

The market price of the Rights Equity Shares can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian finance and lending sector, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies, and significant developments in India's fiscal regulations. In addition, the stock exchanges may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Rights Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance also affect the price of the Rights Equity Shares. In particular, the stock market as a whole recently experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

36. No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares.

37. *Overseas shareholders may not be able to participate in our Company's future rights offerings or certain other equity issues.*

If our Company offers or causes to be offered to holders of its Equity Shares rights to subscribe for additional Equity Shares or any right of any other nature, our Company will have discretion as to the procedure to be followed in making such rights available to overseas holders of the Equity Shares or in disposing of such rights for the benefit of such holders. For instance, our Company may not offer such rights to the holders of Equity Shares who have a registered address in the United States unless: (i) a registration statement is in effect, if a registration statement under the U.S. Securities Act is required in order for the Company to offer such rights to holders and sell the securities represented by such rights; or (ii) the offering and sale of such rights or the underlying securities to such holders are exempt from registration under the provisions of the U.S. Securities Act. Our Company has no obligation to prepare or file any registration statement. Accordingly, shareholders who have a registered address in the United States may be unable to participate in future rights offerings and may experience a dilution in their holdings as a result.

38. *Any future issuance of Equity Shares by our Company or sales of our Equity Shares by any of our Company's significant shareholders may adversely affect the trading price of our Equity Shares.*

Any future issuance of Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares, and could impact our ability to raise capital through an offering of our securities. We cannot assure you that we will not issue further equity shares or that the shareholders will not dispose of, pledge, or otherwise encumber their equity shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

39. *There are significant differences between Indian GAAP, Ind AS, and other accounting standards such as IFRS and U.S. GAAP, which may affect investors' assessment of our financial position.*

We have not quantified the impact of U.S. GAAP or IFRS on our financial data, nor have we provided a reconciliation of our financial statements to these standards. As U.S. GAAP and IFRS differ significantly from Ind AS and Indian GAAP, the relevance of our financial statements in this document largely depends on the reader's familiarity with Indian accounting practices. Therefore, those not familiar with Indian accounting standards should limit their reliance on the financial information presented.

40. *You may be subject to Indian taxes arising out of capital gains on the sale of the Rights Equity Shares.*

Under the current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Additionally, a securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any capital gain realized on the sale of listed equity shares on the stock exchanges held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.50% (plus applicable surcharge and cess). This beneficial provision is, *inter alia*, subject to payment of STT. Further, any capital gains realised on the sale of listed equity shares of an Indian company, held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long-term capital gains tax in India at the rate of 12.50% (plus applicable surcharge and cess).

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India at the rate of 20.00% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates. Capital gains arising from the sale of the Rights Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the

Rights Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Rights Equity Shares.

41. Our Equity Shares are quoted in Indian rupees in India and investors may be subject to potential losses arising out of exchange rate risk on the Indian rupee and risks associated with the conversion of Indian rupee proceeds into foreign currency.

Investors are subject to currency fluctuation risk and convertibility risk since our Equity Shares are quoted in Indian rupees on the Indian stock exchanges on which they are listed. Dividends on the Equity Shares will also be paid in Indian Rupees. In addition, foreign investors that seek to sell Equity Shares will have to obtain approval from the RBI, unless the sale is made on a stock exchange or in connection with an offer made under regulations regarding takeovers. The volatility of the Indian rupee against the US dollar and other currencies may subject investors who convert funds into Indian rupees to purchase our Equity Shares to currency fluctuation risks.

42. Rights of shareholders under Indian law may differ or may be more limited than under the laws of other jurisdictions.

The Companies Act and rules made thereunder, the rules and regulations issued by SEBI and other regulatory authorities, the Memorandum of Association, and the Articles of Association govern the corporate affairs of our Company. Indian legal principles relating to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. In accordance with the provisions of the Companies Act the voting rights of an equity shareholder in a company shall be in proportion to the share of a person in the paid-up equity share capital of that company. Further, Section 106(1) of the Companies Act read with the Articles of Association specifically provides that no member shall exercise any voting right in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid.

43. Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by the company. However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

SECTION XVI: RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the Foreign Investment Promotion Board (“**FIPB**”). Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, **FIPB** section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue. OCBs or Overseas Corporate Bodies have been de-recognized as a class of investor entity in India with effect from September 16, 2003.

Overseas Corporate Body means a company, partnership firm, society and other corporate body owned directly or indirectly to the extent of at least sixty per cent by Non- Resident Indians and includes overseas trust in which not less than sixty percent beneficial interest is held by Non-resident Indians directly or indirectly but irrevocably, which was in existence as on September 16, 2003 and was eligible to undertake transactions pursuant to the general permission granted under FEMA. Any investment made in India by such entities will be treated as investments by incorporated non-resident entities, i.e. a foreign company. The Rights Equity Shares purchased by non- residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in this Issue unless such application is accompanied with necessary approval or covered under a preexisting approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in this Issue.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
